● See the value in my experience as a parent and how it enhances my education.

● Feel confident in my ability to continue working towards my education goal.

Q4 - What did you like most about the event?

26 Responses

What did you like most about the event?

Motivational speaker Sade Burrell and the alumni panel. They inspired me to go after my bachelors, which I was not planning to do.

The alumni panel and the special guest. Sade Burrell was great; I found her to be very inspirational.

I liked that the event gave us the opportunity to attend more than one workshop.

Having the opportunity to meet other parents and learn from their challenges throughout their career.

The workshops

The workshop parenting with love and motivational speaker

Everything was so amazing I wouldn't miss it in 2023. All the staff were so amazing and well organized. Let's talk about the breakfast and lunch, I couldn't asked for anything better. Thank you so much for putting this even together for us mountie parents. I am so proud to be a mountie

Parent students are acknowledged, looked at in high regards, and supported in their educational experience.

I especially like the workshops. Very enlightening and I learned from each one.

The workshops

Key note speaker. She was very relatable and encouraging.

Being in community with other folks like me.

Hearing the story of others single parents and what they have pursue because that motivated to continue more and face my obstacles

The event was extremely organized, motivating and needed. Thank you to EVERYONE involved. Great job!!

It was wonderfully staffed and everyone was so helpful and remained focused to the goal of the event

The workshops and resources provided

Work shops, motivational speakers, alumni stories, lunch . And breakfast

I liked how the event really made me feel empowered as a student parent and capable of many things. I also really enjoyed the "painting your mantra workshop".

I like the panels, and the workshops. I actually liked everything about it.

The Alumni Panel was awesome and very friendly, welcoming, and motivational.

Q5 - Is there anything else you would like to share with us?

Is there anything else you would like to share with us?

Overall enjoyed the event and great work, but wished there was more time for the workshops. I wasn't able to attend all, but I learned a lot from the 2 I got to attend.

I enjoyed learning about the five love languages and being able to discover my own strengths with that activity.

I think if the alumni panel would have gone more smoothly if the panel had the questions ahead of time and had prepared answers. They also didn't really speak much about what the ACTUAL experience is like being a student parent.

No

Maybe some Male perspective??

Thank you for putting this event together.

Please add more time to complete all workshop sessions instead of overlapping them.

Perhaps adding a couple of workshops to the line-up and making time for them after the lunch break. Perhaps making the lunch break 45-mins.

The speaker was excellent! Maybe add another hour so we can socialize with the other parents.

It would have been so much better if we were allowed to eat our food while the presentation was on. That way we wouldn't miss any of it. Other than that, it was awesome!

Can't wait for next year!

I which to continue feeding myself of this events to motivate me and I hope to get more resources for parents pursuing education

I feel so empowered and supported by Mt Sac and the CARE/EOPS program. Big Shout Out to Maria for her continue support.

Looking forward to next year!

I appreciate all the kind gifts and gestures it really made me feel pampered as a mom that doesn't get a break. This allowed it to be not only rewarding but I appreciate enjoying myself as I was learning and growing as a student and a parent. I shed a tear or two and felt comfortable being vulnerable in a supportive environment

Thank you for this experience. It is acknowledgement like this that helps us student-parebts make it through!

I would like to be a part of the panel when it's time for me to be done.

I would love daycare to be provided next time thanks

NA

This was great and more schools should do something like this.
